

CALGARY PHILHARMONIC ORCHESTRA

Name

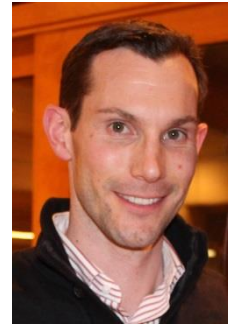

Andrew Matthews

Company

Datalog Technology Inc

Job Title

Corporate Controller

**Biography**

A third-generation Calgarian, Andrew's educational background is rooted in finance and accounting and he enjoys plying his trade on a local, national and international level in both for- and not-for-profit organizations. Andrew holds a Bachelor of Commerce in International Business (University of Victoria), his Masters of Business Administration (Queen's) and his Certified Management Accountant designation (CMA (Alberta)). Andrew is a passionate supporter of the arts & music in Calgary, a family trait he is proud to continue . He and his family stay active by participating in a variety of sports and past-times, including soccer, hockey, skiing, running and golf.

Why did you join Club Wolfgang?

I helped found Club Wolfgang in order to introduce a younger audience to the CPO, with a focus on the social & networking aspects of the concert experience. My family has been involved with the CPO for some time and Club Wolfgang was the perfect vehicle to help attract young professionals who wanted to participate in orchestral music socially and philanthropically.

What's on your iPod?

A little bit of everything...and yes, I still have an iPod Classic...it's always on shuffle and has been known to flip from Glenn Gould, to George Strait, to Jacques Brel, to Junior Wells, to Megadeth, to Drive-By Truckers, to Otis Redding , to Wu-Tang.

What are your hobbies and interests?

Entertaining our 4 year old...I've actually become quite the connoisseur of cartoons! Aside from chasing him around, I've played soccer since I was a kid and continue to play at a high, competitive level in the Calgary Association. I also play guitar and bass and have played in a couple of weekend bands; I enjoy hanging out and having a beer or a scotch with my friends and have recently purchased a motorcycle, which I'm pretty excited about!
